

From The Bottom Up: Building Your Own Jazz Bass Lines

Overview & Purpose

The purpose of this presentation is to learn how to create bass lines from a set of chord changes. The majority of the presentation will focus on “walking” bass lines in a 4/4 meter. While some knowledge of music theory is necessary, excellent bass lines can be created just by using notes in the triads of any chord progression.

Key Points

1. Always play the root of the chord when the chord changes.
2. The remaining beats of the measure can be filled using the 5th of the chord or by repeating the root.
3. Any chord change can be preceded by a note that is one half-step above or below the resolution tone. For example, if the chord is C major, the notes B-natural or Db can be played the beat before the chord change. These chromatic notes can be used regardless of what notes are in the chords or the key signature.
4. When playing jazz bass lines, accurate rhythm is always more important than accurate notes.

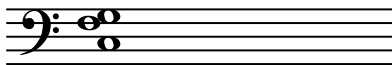

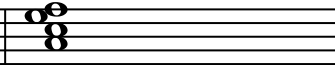

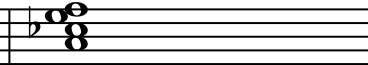

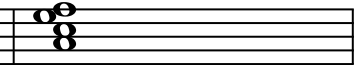

Key Terms

1. **Swing Rhythm** - Playing two eighth-notes as the first and third notes of a triplet.
2. **Tunes** - Jazz musicians use this term to describe songs or standards that they are playing.
3. **Transcription** - This is the act of listening to a recording and notating what one of the musicians is playing. Jazz musicians often transcribe improvised solos by instrumentalists to learn the language of improvisation. Jazz bassists perform this same activity, but usually for improvised bass lines.

Building Bass Lines

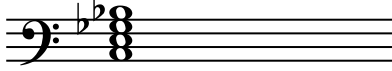

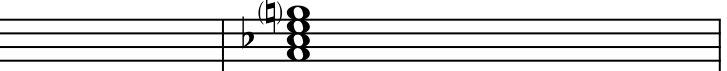

Before learning to build bass lines, the student must learn chord symbols and what they mean. The following are the most common chord symbols seen in lead sheets:

C	Cmin or C-	C ^o or Cdim	C+ or Caug
			

Csus	C6	Cmin6	C ⁶ ₉
			

Cmin ⁶ ₉	Cmaj7 or CΔ	Cmin7 or C-7	Cmin7(b5) or CØ7
			

C7	C7sus	C ^o 7 or Cdim7	C7#5 or C+7
			

C7b5	Cma7#5	Cmin (maj7)
		

In addition, chords can also have added extensions of 9ths, 11ths, and 13ths.

Major Chords

Cmaj9 Cmaj9(#11) Cmaj13(#11)

The image shows three measures of a bass clef staff. The first measure contains the chord Cmaj9 (root, 3rd, 5th, 7th, 9th). The second measure contains Cmaj9(#11) (root, 3rd, 5th, 7th, 9th, #11). The third measure contains Cmaj13(#11) (root, 3rd, 5th, 7th, 9th, #11, 13th).

Minor Chords

Cmin9 Cmin11 Cmin13

The image shows three measures of a bass clef staff. The first measure contains the chord Cmin9 (root, 3rd, 5th, 7th, 9th, minor 3rd). The second measure contains Cmin11 (root, 3rd, 5th, 7th, 9th, minor 3rd, minor 11th). The third measure contains Cmin13 (root, 3rd, 5th, 7th, 9th, minor 3rd, minor 11th, 13th).

Dominant Chords

C9 C9(#11) C13

The image shows three measures of a bass clef staff. The first measure contains the chord C9 (root, 3rd, 5th, 7th, 9th). The second measure contains C9(#11) (root, 3rd, 5th, 7th, 9th, #11). The third measure contains C13 (root, 3rd, 5th, 7th, 9th, #11, 13th).

*In major and dominant chords the 11th is almost always a #11. It is also sometimes implied and not explicitly written

Chords with extensions can also be altered, specifically by using $\flat 5$, $\sharp 5$, $\flat 9$ and $\sharp 9$. Below are some common examples

C7 ($\flat 9$) C7 $\flat 5$ ($\flat 9$) C7($\sharp 9$) C7 $\sharp 5$ ($\sharp 9$)

The image shows four measures of a bass clef staff. The first measure contains C7(b9) (root, 3rd, 5th, 7th, 9th, minor 9th). The second measure contains C7b5(b9) (root, 3rd, flat 5th, 7th, 9th, minor 9th). The third measure contains C7(#9) (root, 3rd, 5th, 7th, 9th, sharp 9th). The fourth measure contains C7#5(#9) (root, 3rd, sharp 5th, 7th, 9th, sharp 9th).

Cmin9 ($\flat 5$) C13 ($\flat 5$) Cmaj9#11 ($\sharp 5$) C9#11($\sharp 5$)

The image shows four measures of a bass clef staff. The first measure contains Cmin9(b5) (root, 3rd, 5th, 7th, 9th, minor 3rd, flat 5th). The second measure contains C13(b5) (root, 3rd, 5th, 7th, 9th, #11, 13th, flat 5th). The third measure contains Cmaj9#11(#5) (root, 3rd, 5th, 7th, 9th, #11, sharp 5th). The fourth measure contains C9#11(#5) (root, 3rd, 5th, 7th, 9th, #11, sharp 5th).

Keep in mind that despite what extensions are added, the foundation of the chord (root, 5th, 3rd, and 7th) remains the same.

Once the student has an understanding of chord theory, he or she can begin to create bass lines. The first lesson will be building walking bass lines in the 4/4 - meter swing style. In general, it is a good strategy to play the root of the chord on the downbeat of the measure. For example:

B \flat 7 E \flat 7 B \flat 7

The remaining three beats can be filled in by either repeating the root or playing the 5th of the chord. Also, the root can be displaced by octaves.

B \flat 7 E \flat 7 B \flat 7

When students feel comfortable with the above concepts, they can create more harmonic interest in their bass lines using the following methods: scalar, arpeggiation, and chromatic leading tones.

Scalar

B \flat 7 E \flat 7 B \flat 7

Arpeggiation

B \flat 7 E \flat 7 B \flat 7

Chromatic

B \flat 7 E \flat 7 B \flat 7 B \flat 7

When using chromaticism, it is important to remember that any note that is either a half-step **above** or **below** the resolution note can be used before a chord change. For example, if the resolution note is a C, then the bassist can precede that note with either a B-natural or D-flat, **regardless** of the harmonic construction of the chord.

QUIET NIGHTS OF QUIET STARS (CORCOVADO)

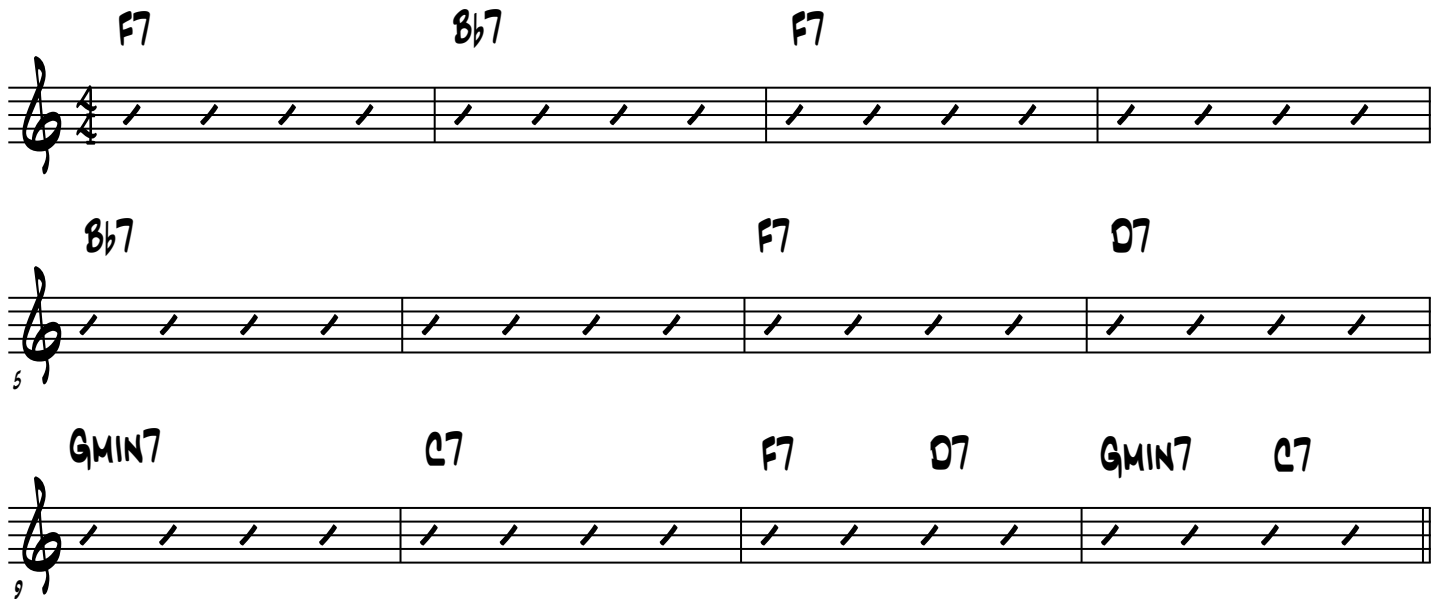

BASS

ANTONIO CARLOS JOSIM
BASS LINE BY MICHAEL T. GEIS

The image displays a bass line for the song "Quiet Nights of Quiet Stars (Corcovado)". The music is written in bass clef with a 4/4 time signature. The key signature has one flat (B-flat). The piece is divided into measures, with measure numbers 5, 9, 13, 17, 21, 25, and 29 indicated at the start of their respective lines. Chord symbols are placed above the notes to indicate the harmonic structure. The chords used are: D7/A, A \flat oIM7, Gm17, C7, Fm17, Fm17b5, A7, D7, Dm17, G7, D7/A, A \flat oIM7, Gm17, C7, Fm17, Fm17b5, A7, Dm17, G7, EIm17b5, A7, Dm17, G7, and C6. The bass line consists of eighth and quarter notes, often beamed together, with some measures containing rests.

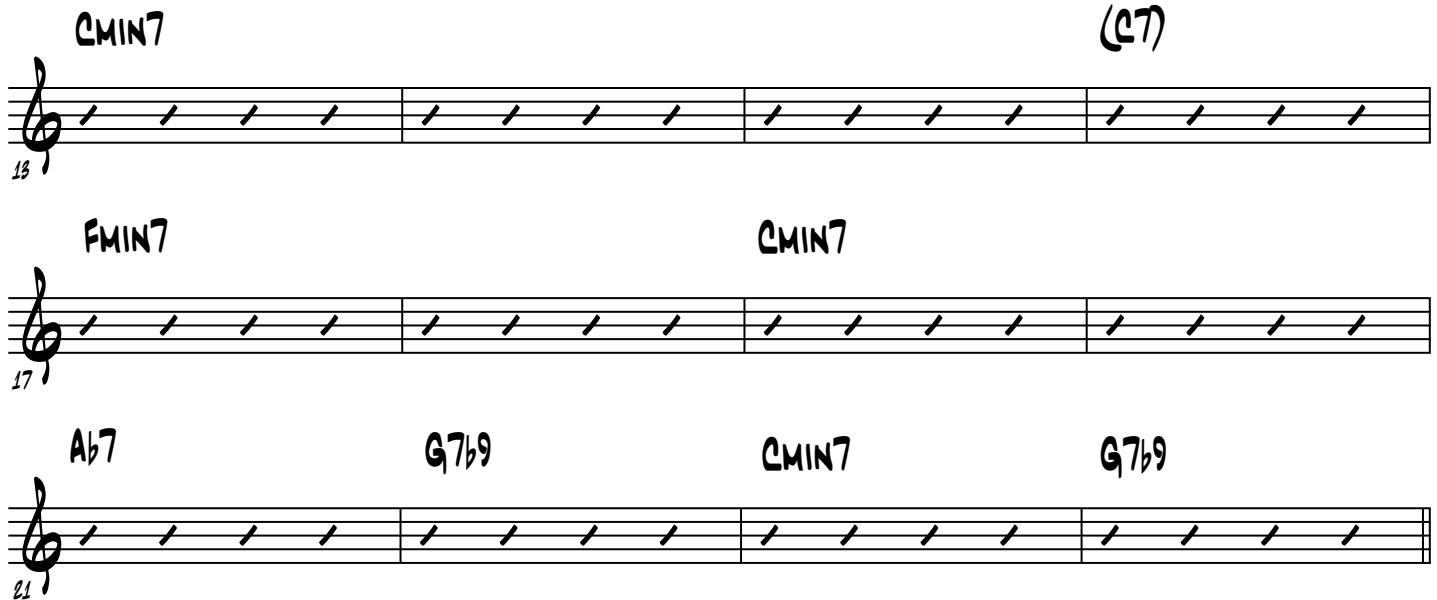

COMMON JAZZ CHORD PROGRESSIONS

1. JAZZ BLUES

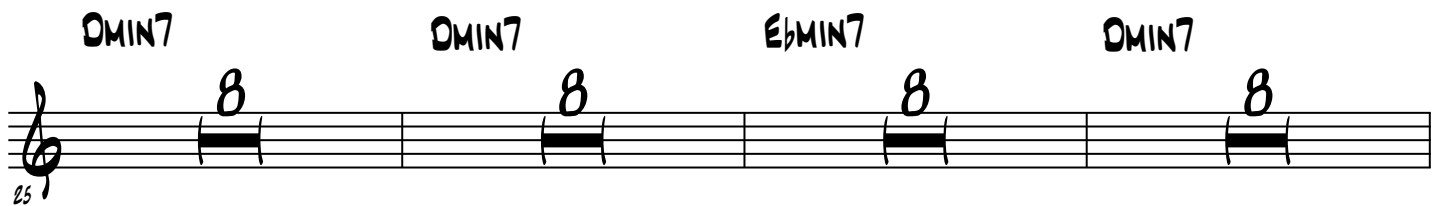

Musical notation for Jazz Blues progression, consisting of three staves of music in 4/4 time. The first staff starts at measure 5 and contains chords F7, Bb7, and F7. The second staff starts at measure 9 and contains chords Bb7, F7, and D7. The third staff starts at measure 13 and contains chords GMIN7, C7, F7, D7, GMIN7, and C7.

2. MINOR BLUES

Musical notation for Minor Blues progression, consisting of three staves of music in 4/4 time. The first staff starts at measure 13 and contains chords CMIN7 and (C7). The second staff starts at measure 17 and contains chords FMIN7 and CMIN7. The third staff starts at measure 21 and contains chords Ab7, G7b9, CMIN7, and G7b9.

3. MODAL TUNES (SO WHAT, IMPRESSIONS)

Musical notation for Modal Tunes progression, consisting of one staff of music in 4/4 time. The staff starts at measure 25 and contains chords DMIN7, DMIN7, EbMIN7, and DMIN7, each with an 8-measure rest indicated by a thick horizontal bar.
